

RoHS Material Declaration Certificate

HMS Industrial Networks hereby states that all standard products, per the below table, do not contain any of the restricted material (Lead, Mercury, PBB, PBDE, Cadmium, Hexavalent chromium, DEHP, BBP, DBP, DIBP) as defined in the European Union directive 2015/863/EU (RoHS III) in any amounts higher than limits stated in the directive*.

Each of the component material in an HMS product is assessed in accordance with HMS procedures for approval of material. HMS use documents (such as material declaration or other information) and contractual agreements to evaluate compliance and approve new materials and components. HMS's RoHS compliant products are manufactured in lead free processes.
